

Assessment of QL Skills

Student achievement of quantitative literacy skills will be measured by evaluating each student's ability to....

- Create frequency distributions for the class data for each of the five personality factors.
- Calculate class mean and standard deviations for each of the five personality factors using excel spreadsheets.
- Calculate Z scores and percentile scores for their individual personality trait scores using the class mean and standard deviation.
- Write a report that demonstrates insight of their personality gained from the quantitative analysis process.
