

# **MAC<sup>3</sup> Project**

**Edmonds Community College  
Business Management**

**Department:**

**Claudia Levi, Joan Tito, Ann  
Paulson**

# Project Description:

Develop the framework for a basic, applied financial management course.

The course will focus on using financial tools that require extensive use of arithmetic and basic algebra.

# Course Title

**Introduction to Finance: Practical Money Management**

## Course Objective

Apply financial skills to managing money at school, home and work.

# Course Outcomes

1. Understand how the same financial terms and concepts are used at home, school and work
2. Calculate return on investment
3. Calculate ultimate cost of debt
4. Develop a budget
5. Forecast finances using financial statements
